GLOBAL EYE WHITE BOOK

PRESENTED TO : CHAD'S EMBASSY IN INDIA

About Global Eye Intelligence

Global Eye Intelligence is a next-generation geopolitical intelligence company based in India, designed to function as both a strategic think tank and an execution powerhouse. Rooted in Indian strategic thought and calibrated to the challenges of an evolving global order, Global Eye Intelligence focuses on delivering actionable, real-time, and forward-looking intelligence products across sectors and regions.

We specialize in developing sovereign, predictive, and region-specific intelligence infrastructure that empowers governments, multilateral institutions, and strategic partners to anticipate and respond to complex challenges. Our work spans areas such as defense and military intelligence, strategic foresight, ESG risk mapping, conflict analysis, economic diplomacy, and public sector innovation.

What distinguishes Global Eye Intelligence is its hybrid model—a fusion of high-quality research, policy design, intelligence systems development, and digital infrastructure building. Our team includes political analysts, coders, economists, policy strategists, designers, and simulation experts who collaborate across domains to craft intelligence blueprints that are holistic, scalable, and tailored to sovereign needs.

🔵 Executive Summary

Chad is undergoing significant political, environmental, and economic transformation amidst global volatility and regional instability. Strategic foresight, intelligence-backed policymaking, and data-informed governance are essential to strengthening resilience, public service delivery, and national security.

Global Eye Intelligence proposes a comprehensive strategic partnership with the Government of Chad to deploy modular foresight labs, crisis simulations, real-time risk dashboards, and bilateral policy innovation initiatives.

This proposal outlines customized strategic intelligence solutions for 24 ministries.

🔷 Role of Global Eye Intelligence

Global Eye Intelligence provides:

- Predictive intelligence platforms tailored to ministry mandates

- Crisis simulation tools for national security, economy, and climate resilience

- AI-driven dashboards for development, planning, and diplomacy

- Bilateral foresight diplomacy between India and Chad

- Capacity-building through strategic policy labs

As a Think-and-Do Tank, we co-create lasting infrastructure for governance foresight, not just reports.

🔚 Conclusion

Global Eye Intelligence stands ready to co-create Guinea's national intelligence foresight infrastructure, enhance ministerial decision-making with predictive insights, and deepen India–Chad strategic ties. We propose ministerial consultations to initiate pilot labs and build a new chapter of intelligence-led transformation.
